# trans·la·tion

noun | trans·la·tion | \tran(t)s-'lā-shən, trānz-\

## Flexibility and stability

Our greatest asset is our people. With Canada's largest in-house team of translation specialists and an extensive group of trusted collaborators, TRSB has the experience and expertise to take on all of your language requirements, regardless of size, subject or deadline.

## Turnkey solutions

Your business needs are constantly evolving. That's why TRSB has developed agile and efficient language services that allow us to evolve with you. Our team is with you every step of the way, for any type of project.

## Optimal use of technology

We use the tools that are right for you. By combining three decades of expertise in the translation industry and the latest technologies, TRSB delivers quality language solutions and brings value to all your communication needs.

## Certified processes

Our standard for excellence is what drives our business. TRSB's triple certification: ISO 9001, CAN CGSB 131.10-2008 and EN 15038 ensure quality control throughout every aspect of our operations.

## Simplified gateway

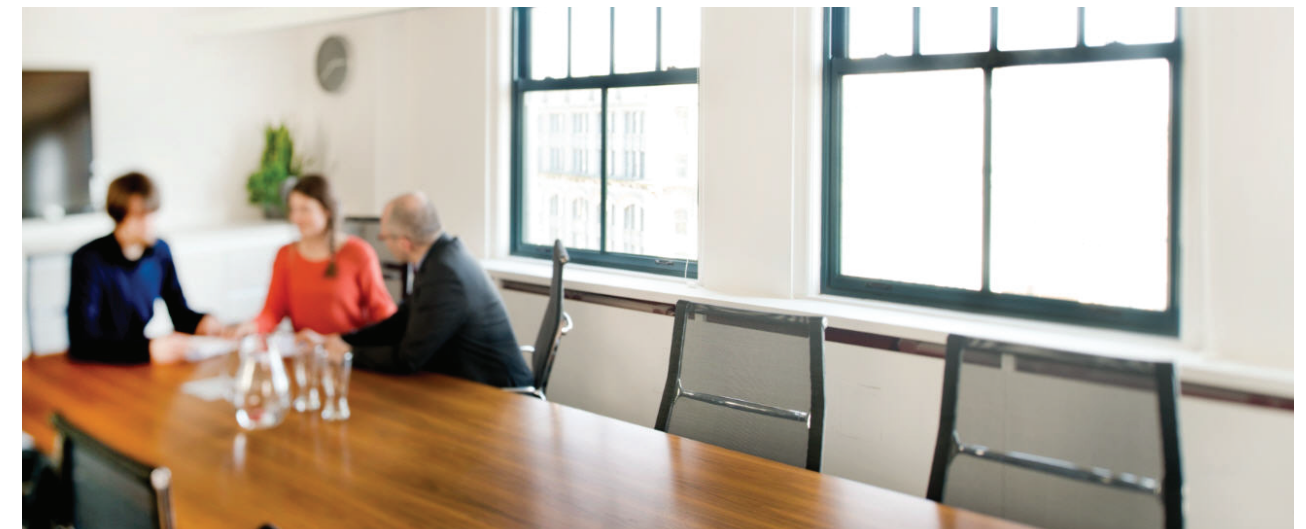

To track all of your requests, ensure transparency of your translation spend, and simplify the request process, TRSB has developed TRSB Portal, a secure, easy-to-use web-based tool that can be customized to your business reality, at no additional cost to you.

## Safeguarding your information

Protecting the integrity and privacy of your data is critical to our business. Our highly secure IT infrastructure is fully compliant with international standards and relies on proven technology and world-class manufacturers to ensure a stable and scalable environment that can accommodate your needs and growth.

## Long-term partnerships

We believe in more than just best practices. Our mission is to continuously look for ways to improve your customer experience, and act as an extension of your business, both today and for the long term.

## Committed to you, the customer
